MODENA MOTORSPORTS TRACK DAYS 2009

Left, Uwe Meissner's Modena Motorsport Track Days are always extremely popular and are usually held at the Nürburgring, as it was this year. All types of Ferraris have a run at the track over several days, and quite an assemblage shows up including F1, sports, prototypes, GT and production models. Here is the 196 S, s/n 0776, driver unknown. There is a small Concours as well, in which Cavallino plays a small part.
