Left, in April of 2009, Mr. Piero Ferrari, Enzo Ferrari's son, and Mr. Giorgio Pighi, the Mayor of Modena, uncovered a special sculpture which symbolizes the shape of the new Enzo Ferrari Museum to be built in downtown Modena. The original building where Enzo Ferrari was born in 1898 will be fully restored and integrated into this new building, which will see completion in 2011. The Ferrari material collected and displayed will be extensive.

Above, the new and very modern Enzo Ferrari Museum will offset and complement the traditional house where Enzo Ferrari was born in 1898.
